The Mustang was designed originally to be used with the Allison V-1710 engine – making it a very good aircraft. When the B & C models were made of the P-51, they added a Rolls Royce Merlin engine and this completely transformed its performance at high altitude (15,000+ feet) which meant it matched or even bettered that of the Luftwaffe 's fighter jets.

K á roly is a very common Hungarian male given name. It is also sometimes found as a Hungarian surname. The origin of this name is the Turkic Karul, which means hawk. Nowadays K á roly is considered the equivalent of English Karl or Charles (because the Latin Carolus is very close to K á roly).
