This book is the first account of the British diplomatic mission in Pakistan from its foundation at the end of the Raj in 1947 to the ' War on Terror ' . Drawing on original documents and interviews with participants, this book highlights key events and personalities as well as the influence and perspectives of individual diplomats previously not explored. The book demonstrates that the period witnessed immense changes in Britain ' s standing in the world and in the international history of South Asia to show that Britain

Acces PDF Anglo Pakistan Relations M Aslam Qureshi

maintained a diplomatic influence out of proportion to its economic and military strength. The author suggests that Britain ' s impact stemmed from colonial-era ties of influence with bureaucrats, politicians and army heads which were sustained by the growth of a Pakistani Diaspora in Britain.

Additionally, the book illustrates that America ' s relationship with Pakistan was transactional as opposed to Britain ' s, which was based on ties of sentiment as, from the mid-1950s, the United States was more able than Britain to give Pakistan the financial, military and diplomatic support it desired. A unique and timely analysis of the British diplomatic mission in Pakistan in the decades after independence, this book will be of interest to academics working in the

fields of South Asian History and Politics, International Relations, British and American Diplomacy and Security Studies, Cold War Politics and History and Area Studies.

This book presents a study of the international dimensions of the Kashmir dispute between India and Pakistan from before its outbreak in October 1947 until the Tashkent Summit in January 1966. By focusing on Kashmir ' s under-researched transnational dimensions, it represents a different approach to this intractable territorial conflict. Concentrating on the global context(s) in which the dispute unfolded, it argues that the dispute ' s evolution was determined by international concerns that existed from before and went beyond the

Acces PDF Anglo Pakistan Relations M Aslam Qureshi

Indian subcontinent. Based on new and diverse official and personal papers across four countries, the book foregrounds the Kashmir dispute in a twin setting of Decolonisation and the Cold War, and investigates the international understanding around it within the imperatives of these two processes. In doing so, it traces Kashmir ' s journey from being a residual irritant of the British Indian Empire, to becoming a Commonwealth embarrassment and its eventual metamorphosis into a security concern in the Cold War climate(s). A princely state of exceptional geo-strategic location, complex religious composition and unique significance in the context of Indian and Pakistani notions of nation and statehood, Kashmir also complicated their relations with
