Anti-Judaism: The Western Tradition: Amazon.co.uk: David ... With Anti-Judaism, his work takes in 3,000 years of historical thought from the Ancient Egyptians to Nazi Germany on a subject almost impossibly vast: how anti-Judaism became the basis for people to criticise and understand their societies, and subsequently, how this became the bedrock of the Western tradition. In Anti-Judaism, Nirenberg allows for a continuation of trends in the development of a shared concept of anti-Judaism built on and progressed over the periods covered in his book ...

Anti-Judaism: The Western Tradition | Reviews in History Author/historian David Nirenberg defines Anti-Judaism as "a powerful theoretical framework for making sense of the world." It's different than anti-semitism, a hatred that is irrational, and more insidious. He tracks its influence on the Western tradition dating back to the early Christians through World War II.

Anti-Judaism: The Western Tradition - David Nirenberg ...
Nirenberg's deliberately provocative title points to the central role that Judaism has played in the West, including Islamic empires stretching to Persia and Pakistan, but excluding the Far East. Nirenberg hints at the ubiquity of this construct "Judaism," insisting that the Western tradition cannot be extricated from anti-Judaism.

“Exhilarating . . . a scholarly tour de force. The story Nirenberg has to tell is not over.”—Adam Kirsch, Tablet This incisive history upends the complacency that confines anti-Judaism to the ideological extremes in the Western tradition. With deep learning and elegance, David Nirenberg shows how foundational anti-Judaism is to the history of the West. Questions of how we are Jewish and, more critically, how and why we are not have been churning within the Western imagination throughout its history. Ancient Egyptians, Greeks, and Romans; Christians and Muslims of every period; even the secularists of modernity have used Judaism in constructing their visions of the world. The thrust of this tradition construes Judaism as an opposition, a danger often from within, to be criticized, attacked, and eliminated. The intersections of these ideas with the world of power—the Roman destruction of the Second Temple, the Spanish Inquisition, the German Holocaust—are well known. The ways of thought underlying these tragedies can be found at the very foundation of Western history.

A magisterial history, ranging from antiquity to the present, that reveals anti-Judaism to be a mode of thought deeply embedded in the Western tradition. There is a widespread tendency to regard anti-Judaism - whether expressed in a casual remark or implemented through pogrom or extermination campaign - as somehow exceptional: an unfortunate indicator of personal prejudice or the shocking outcome of an extremist ideology married to power. But, as David Nirenberg argues in this ground-breaking study, to confine anti-Judaism to the margins of our culture is to be dangerously complacent. Anti-Judaism is not an irrational closet in the vast edifice of Western thought, but rather one of

File Type PDF Anti Judaism The Western Tradition David Nirenberg

the basic tools with which that edifice was constructed.

Toward a Definition of Antisemitism offers new contributions by Gavin I. Langmuir to the history of antisemitism, together with some that have been published separately. The collection makes Langmuir's innovative work on the subject available to scholars in medieval and Jewish history and religious studies. The underlying question that unites the book is: what is antisemitism, where and when did it emerge, and why? After two chapters that highlight the failure of historians until recently to depict Jews and attitudes toward them fairly, the majority of the chapters are historical studies of crucial developments in the legal status of Jews and in beliefs about them during the Middle Ages. Two concluding chapters provide an overview. In the first, the author summarizes the historical developments, indicating concretely when and where antisemitism as he defines it emerged. In the second, Langmuir criticizes recent theories about prejudice and racism and develops his own general theory about the nature and dynamics of antisemitism.

"A powerful book. It combines the coolness of scholarship with conclusions that cannot fail to engage the passions."—Saul Bellow The Arab-Israeli conflict has unsettled the Middle East for over half a century. This conflict is primarily political, a clash between states and peoples over territory and history. But it is also a conflict that has affected and been affected by prejudice. For a long time this was simply the "normal" prejudice between neighboring people of different religions and ethnic origins. In the present age, however, hostility toward Israel and its people has taken the form of anti-Semitism—a pernicious world view that goes beyond prejudice and ascribes to Jews a quality of cosmic evil. First published in the 1980s to universal acclaim,

File Type PDF Anti Judaism The Western Tradition David Nirenberg

Semites and Anti-Semites traces the development of anti-Semitism from its beginnings as a poison in the bloodstream of Christianity to its modern entrance into mainstream Islam. Bernard Lewis, one of the world's foremost scholars of the Middle East, takes us through the history of the Semitic peoples to the emergence of the Jews and their virulent enemies, and dissects the region's recent tragic developments in a moving new afterword. "A powerful and important work, beautifully written and edited, and based on a range of erudition (in the best sense) that few others, if any, could command."—George Kennan

In *Dark Mirror*, Sara Lipton offers a fascinating examination of the emergence of anti-Semitic iconography in the Middle Ages. The straggly beard, the hooked nose, the bag of coins, and gaudy apparel—the religious artists of medieval Christendom had no shortage of virulent symbols for identifying Jews. Yet, hateful as these depictions were, the story they tell is not as simple as it first appears. Drawing on a wide range of primary sources, Lipton argues that these visual stereotypes were neither an inevitable outgrowth of Christian theology nor a simple reflection of medieval prejudices. Instead, she maps out the complex relationship between medieval Christians' religious ideas, social experience, and developing artistic practices that drove their depiction of Jews from benign, if exoticized, figures connoting ancient wisdom to increasingly vicious portrayals inspired by (and designed to provoke) fear and hostility. At the heart of this lushly illustrated and meticulously researched work are questions that have occupied scholars for ages—why did Jews become such powerful and poisonous symbols in medieval art? Why were Jews associated with certain objects, symbols, actions, and deficiencies? And what were the effects of such portrayals—not only in medieval society, but throughout

File Type PDF Anti Judaism The Western Tradition David Nirenberg

Western history? What we find is that the image of the Jew in medieval art was not a portrait of actual neighbors or even imagined others, but a cloudy glass into which Christendom gazed to find a distorted, phantasmagoric rendering of itself.

Christianity, Judaism, and Islam are usually treated as autonomous religions, but in fact across the long course of their histories the three religions have developed in interaction with one another. In *Neighboring Faiths*, David Nirenberg examines how Muslims, Christians, and Jews lived with and thought about each other during the Middle Ages and what the medieval past can tell us about how they do so today. There have been countless scripture-based studies of the three “religions of the book,” but Nirenberg goes beyond those to pay close attention to how the three religious neighbors loved, tolerated, massacred, and expelled each other—all in the name of God—in periods and places both long ago and far away. Nirenberg argues that the three religions need to be studied in terms of how each affected the development of the others over time, their proximity of religious and philosophical thought as well as their overlapping geographies, and how the three “neighbors” define—and continue to define—their place in terms of one another. From dangerous attractions leading to interfaith marriage; to interreligious conflicts leading to segregation, violence, and sometimes extermination; to strategies for bridging the interfaith gap through language, vocabulary, and poetry, Nirenberg aims to understand the intertwined past of the three faiths as a way for their heirs to produce the future—together.

A must-read book for understanding this vibrant and influential modern Jewish movement Hasidism originated in southeastern Poland, in mystical circles centered on the

File Type PDF Anti Judaism The Western Tradition David Nirenberg

figure of Israel Ba'al Shem Tov, but it was only after his death in 1760 that a movement began to spread. Today, Hasidism is witnessing a remarkable renaissance around the world. This book provides the first comprehensive history of the pietistic movement that shaped modern Judaism. Written by an international team of scholars, its unique blend of intellectual, religious, and social history demonstrates that, far from being a throwback to the Middle Ages, Hasidism is a product of modernity that forged its identity as a radical alternative to the secular world.

The Imaginary Synagogue studies the social and political importance as well as the evolution of the vast anti-Jewish Portuguese Early Modern literary production.

Since the Nazi holocaust took the lives of a third of the Jewish people of the world, the Christian Church has been engaged in a self-examination of its own historical role in the creation of anti-semitism. In this major contribution to that search, theologian Rosemary Radford Ruether explores the roots of anti-semitism from new perspectives.

Lawyer, activist, teacher, writer: for over 40 years, Derrick Bell has provoked his critics and challenged his readers with uncompromising candor and progressive views on race and class in America. A founder of Critical Race Theory and pioneer of the use of allegorical stories as tools of analysis, Bell's groundbreaking work shatters conventional legal orthodoxies and turns comfortable majoritarian myths inside out. Edited and with an extensive introduction by leading critical race theorists Richard Delgado and Jean Stefancic, The Derrick Bell Reader reflects the tremendous breadth of issues that Bell has grappled with over his phenomenal career, including affirmative action, black nationalism, legal
