I had much respect for Sam Harris. It was his book, End of Faith, that opened my eyes to the perils of Islam. This statement is both surprising and reprehensible. Bin Laden killed thousands and inspired a ton of idiots. This shows how far down the leftist rabbit hole these liberal intellectuals have travelled.

that came to perceive the United States as an enemy. Beginning with an introduction on the legacy of Western misconceptions about Islam and Arabs, the book focuses on Islamic fundamentalism and U.S. foreign policy, and the way both polarize the world into a "good and evil" "with us or against us" view. Drawing heavily from Arabic language sources, AbuKhalil discusses the rise of Osama bin Laden and al-Qaeda, the Saudi connection, the Arab-Israeli conflict, Afghanistan, Pakistan, and the regional implications of the American "War On Terrorism."

"Fascinating account. I strongly recommend it." –Jeane J. Kirkpatrick  
World-renowned terrorism expert Yossef Bodansky explores the transformation of Osama bin Laden from a once promising engineering student into the cold-blooded leader of the radical Islamic terrorist group, al Qaeda. With meticulous detail, Bodansky chronicles the events leading up to the international operation of hunting bin Laden. In the process, Bodansky pulls together a chilling story that is as ancient as the Crusades; a story that transcends bin Laden and any other single man, one that sweeps from Iran, Afghanistan, and Iraq to Kosovo and beyond. He takes you deep into the heart of centuries-old hatreds that have produced generations of bin Ladens and a terror network of underground armies that can strike virtually anywhere in the world. Fueled by Middle Eastern oil wealth and covertly armed by some of America's closest allies, this terror network is waging a brutal guerrilla war whose aim is nothing short of changing the course of history. The battlefields are increasingly Western city streets, and the casualties are most often innocents caught in the crossfire. Including information about al Qaeda's pursuit of chemical and nuclear weapons, covert deals between the U.S. and Islamic terrorists, and American efforts in the years-long campaign to capture Osama bin Laden, this book is a sobering wake-up call.

Zachary Shore asserts that the growing ambivalence of Europe's Muslims poses risks to national identities, international security, and the transatlantic alliance. Through in-depth interviews with Muslims living across the European Union, he gives voice to people of deep faith who speak of the conflict between their desire to integrate into their adopted societies and the repulsion they feel toward some of what the West represents.

While we have all seen and viscerally felt the damage bin Laden has unleashed on the United States, most of us do not have a coherent understanding of what motivates him and his supporters. This could pave the road to disaster, for the forces bin Laden has led and inspired are a far more lethal, varied, and unique threat than that posed by any others labeled "terrorist" over the past quarter century. Furthermore, the strength of his personality and message is likely to create an enduring legacy that will persist long after bin Laden's own departure from the scene. Bin Laden's railing diatribes,

full of historical allusions and Koranic references, may sound like the irrational ramblings of a madman to those in the West. One must understand, however, that there exists a sizable population in the Muslim world with whom bin Laden's words resonate. Much as the spiritual fervor and fiery rhetoric of America's founding fathers incited a revolution against British colonizers, bin Laden's eloquence and religious conviction are intended to unite the Islamic world in a defensive jihad against what he describes as America's predatory war on Muslims. Only history will show the success or failure of his endeavor. *Through Our Enemies' Eyes* focuses on what extremists such as bin Laden have said and done and estimates the impact of those words and deeds on the Muslim world. The author assesses bin Laden as a person (his personality, his leadership capabilities, and his intentions), his al Qaeda network, and the historical and religious contexts in which he acts, and details the radical Islamist push for a defensive jihad that has bin Laden at the forefront. Finally, the author analyzes what all this means for U.S. interests.

Osama Bin Laden is unquestionably the leader of the world's most deadly terrorist cult. He has perverted the teachings of Islam to create a fringe religious ideology, Bin Ladenism, where only al-Qaeda speaks for God. In his cult, suicide bombing is the highest form of worship and the mass murder of Muslims proves one's devotion. Al-Qaeda's 9/11 attack on the United States was just a small part of Bin Laden's long-term strategy to win a civil war for control of Islam. By fighting his terrorists solely with bullets and bombs and ignoring his war on Islam, we have bolstered Bin Laden's recruiting efforts abroad, undermined civil liberties and economic security at home and tarnished America's reputation internationally. Career intelligence officer Malcolm Nance proposes a quantum shift in how to eliminate al-Qaeda in less than twenty-four months, while recreating America's reputation as a force for good around the world. His plan includes:

- Exposing al-Qaeda's mission to create a nuclear armed terror Emirate, incite a Muslim civil war and eventually seize of control of Islam.
- Challenging and breaking the perceived spiritual link between the mainstream Islam and al-Qaeda's cultist ideology.
- Attacking al-Qaeda fighters through precision intelligence and special operations missions, thereby reducing the deaths of innocent civilians.
- Reframing and restoring America's shattered image in the developing world in order to support the global counterterrorism and counterinsurgency campaign.

An End to al-Qaeda is both a revolutionary blueprint for destroying al-Qaeda and a fierce critique of America's poorly executed war on Bin Laden's terrorists.

By the author of the controversial national bestseller "Imperial Hubris"

A veteran CIA counter-terrorism analyst provides a sobering analysis of the U.S. Iraqi War policy while making unsettling predictions

about how American security will be affected by the conflict, in a report that reveals how America's foreign policy is undermining key national goals and rendering the country vulnerable to terrorism. Reprint. 50,000 first printing.

An anonymous member of the U.S. intelligence community argues that Islamists are not against democracy, but specific U.S. policies viewed as threatening to their lands and religion allow al Qaeda to continue to gain support.

Nearly seven million Muslims live in the United States today, and their relations with non-Muslims are strained. Many Americans associate Islam with figures such as Osama bin Laden, and they worry about "homegrown terrorists." To shed light on this increasingly important religious group and counter mutual distrust, renowned scholar Akbar Ahmed conducted the most comprehensive study to date of the American Muslim community. *Journey into America* explores and documents how Muslims are fitting into U.S. society, placing their experience within the larger context of American identity. This eye-opening book also offers a fresh and insightful perspective on American history and society. Following up on his critically acclaimed *Journey into Islam: The Crisis of Globalization* (Brookings, 2007), Ahmed and his team of young researchers traveled for a year through more than seventyfive cities across the United States—from New York City to Salt Lake City; from Las Vegas to Miami; from the large Muslim enclave in Dearborn, Michigan, to small, predominantly white towns like Arab, Alabama. They visited homes, schools, and over one hundred mosques to discover what Muslims are thinking and how they are living every day in America. In this unprecedented exploration of American Muslim communities, Ahmed asked challenging questions: Can we expect an increase in homegrown terrorism? How do American Muslims of Arab descent differ from those of other origins (for example, Somalia or South Asia)? Why are so many white women converting to Islam? How can a Muslim become accepted fully as an "American," and what does that mean? He also delves into the potentially sticky area of relations with other religions. For example, is there truly a deep divide between Muslims and Jews in America? And how well do Muslims get along with other religious groups, such as Mormons in Utah? *Journey into America* is equal parts anthropological research, listening tour, and travelogue. Whereas Ahmed's previous book took the reader into homes, schools, and mosques in the Muslim world, his new quest takes us into the heart of America and its Muslim communities. It is absolutely essential reading for anyone trying to make sense of America today.

A two-time Pulitzer Prize winner and author of the best-selling *Ghost Wars* traces the Bin Laden family's rise to power and privilege, describes the diverse lifestyles of the generation to which Osama bin Laden belongs, and discusses their attempts to recover from the effects of September 11.
