The 2019 edition of the World Investment Report focuses on special economic zones (SEZs) which are widely used across most developing and many developed economies. Although the performance of many zones remains below expectations, the rate of establishment of new zones is accelerating as governments increasingly compete for internationally mobile industrial activity. Policymakers face not only the traditional challenges to making SEZs succeed, including the need for strategic focus, sound governance models, and effective investment promotion tools, but also new challenges brought about by the sustainable development imperative, the new industrial revolution, and changing patterns of international production. The Report explores the place of SEZs in today ' s global investment landscape and provides guidance for policymakers on how to make SEZs work for sustainable development. It presents international investment trends and prospects at global, regional and national levels, as well as the evolution of international production and global value chains. It analyses the latest developments in new policy measures for investment promotion, facilitation and regulation around the world, as well as updates on investment treaties, their reform and investment dispute settlement cases.

Tells how clutches & transmissions work - gear, friction, & hydrostatic. Gives basics of service & repair of major types of drives, transmission, transaxles, & clutches used in compact equipment. Includes troubleshooting guides. It provides the reader with a list of skills & knowledge that should be learned with each chapter. CONTENTS: Basic principles, clutches, mechanical transmissions, hydrostatic transmissions, belt & chain drives, differentials, final drives, power take-offs, service & maintenance & troubleshooting.

Chilton part number 6198.

Total Tractor! is all about tractors--from exciting vintage tractors and farming machines to the latest state-of-the-art John Deere. Galleries of colorful tractors of every kind and all their amazing attachments are interspersed with stunning images of tractors in action. There's a complete history of tractors from steam tractor to diesel, and many makes, such as Massey Ferguson, are shown in fascinating detail. Crazy contests such as tractor pulling are also featured. Total Tractor! is the must-read book for any child who is passionate about tractors.

The second volume on tineid moths from Europe presents information for the identification of 103 species. For each species, a diagnosis, illustrations of moths, male and female genitalia as well as information on life history and distribution is given.

?Banana Systems in the Humid Highlands of Sub-Saharan Africa: Enhancing Resilience and Productivity? addresses issues related to agricultural intensification in the (sub)humid highland areas of Africa, based on research carried out in the Great Lakes Region by the Consortium for Improving Agriculture-based Livelihoods in Central Africa.
