The light is typically yellow or orange, and features an image of engine with text telling the driver to check or service the engine or powertrain. The engine computer stores a diagnostic code when the light begins glowing.

Why is My Check Engine Light On? - AutoZone

Now watch your Check Engine Light. It will start flashing. It will look like Morse Code, but it isn't, and is real easy to interpret. The first code that will flash will be a code 12. It will be "flash, pause, flash, flash, pause, pause," and repeat the cycle three times. The ECM will flash each code three times, and move on to the next. If you have no codes stored, it will keep flashing code 12.
