Cross Bones By Kathy Reichs

Cross Bones is the 8th book in Kathy Reichs's Temperance Brennan forensic mystery series. I found it to be one of the more interesting ones so far. Temperance is working at her 2nd job as forensic anthropologist assisting the Montreal coroner.

Cross Bones is a disused post-medieval burial ground on Redcross Way in Southwark, south London. Up to 15,000 people are believed to have been buried there. It was closed in 1853. Cross Bones is thought to have been established originally as an unconsecrated graveyard for prostitutes, or "single women", who were known locally as "Winchester Geese" because they were licensed by the Bishop of ...

Cross Bones - Wikipedia

As a consequence of working on the television show Bones, Kathy Reichs had to cease working for both the United Nations and agencies of the federal government, as these agencies have strict non disclosure guidelines regarding information discovered while performing fieldwork and research in an official capacity.

Cross Bones by Kathy Reichs. Author Kathy Reichs. Title Cross Bones: Could this hold the answer to the victim's death? A full week after death, a barely recognisable body is discovered in a closet. Format Paperback.

Receiving mysterious clues about a shooting murder in Montreal, Tempe Brennan wonders if the victim may have been a Jewish black market antiques trader and teams up with detective Andrew Ryan and biblical archaeologist Jake Drum for a dangerous investigation in Israel. By the author of Monday Mourning. Reprint.

'Death by self-inflicted gunshot wound to the head' is the on-scene assessment, but the victim's relatives are adamant in their rejection of suicide as an explanation. Discovered in a closet, a week after death, the body is barely recognisable. Extreme heat has accelerated decomposition, and Dr Temperance Brennan's forensic expertise is required!PB

#1 New York Times bestseller! From extremist groups to NASCAR to forensic twists, Temperance Brennan is back in a turbo-charged story of secrets and murder. A body is found in a barrel of asphalt in a landfill just before Raceweek when 200,000 fans are pouring into town. The next day a NASCAR crewmember visits Temperance Brennan at the MCME and tells his story. His sister, Cyndi Gamble, then a high school senior who wanted to be a NASCAR driver, disappeared twelve years before along with her boyfriend, Cale Lovette. Lovette used to hang out with a group of right-wing extremists known as the Patriot Posse. Is the body Cyndi's? Or Cale's? At the time of their disappearance, the FBI joined the investigation because of Cale's association with extremists. But the search was quickly terminated. Was there a cover-up? Tempe considers the multiple theories: did the pair take off together to join the underground militia and then get killed by militia types? Did Cale kill Cyndi and disappear into the militia underground? The case gets more complex when another man, Ted Raines, is identified as missing in Charlotte, where he had gone for the big race. Ted was an employee of the CDC in Atlantic. Could the body be his? What could Raines—if it is Raines—have been up to?

From bestselling author Kathy Reichs comes a book set in Charleston, South Carolina, the center of a lucrative, clandestine, sophisticated trade in body parts—the kind that leaves the donor dead. Summoned to South Carolina to fill in for a negligent colleague, Tempe is stuck teaching a lackluster archaeology field school in the ruins of a Native American burial ground on the Charleston shore. But when Tempe stumbles upon a fresh skeleton among the ancient bones, her old friend Emma Rousseau, the local coroner, persuades her to stay on and help with the investigation. When Emma reveals a disturbing secret, it becomes more important than ever for Tempe to help her friend close the case. The body count begins to climb. An unidentified man is found hanging from a tree deep in the woods. Another corpse shows up in a barrel. There are mysterious nicks on bones in several bodies, and signs of strangulation. Tempe follows the trail to a free street clinic with a belligerent staff, a suspicious doctor, and a donor who is a charismatic televangelist. Clues abound in the most unlikely places as Tempe uses her unique knowledge and skills to build her case, even as the local sheriff remains dubious and her own life is threatened. Tempe's love life is also complicated. Ryan, her current flame, has come down to visit her from Montreal, and Pete, her former husband, is investigating the disappearance of a local woman—and he and Tempe are staying in the same borrowed beach house. Ryan and Pete compete for her attentions, and Tempe finds herself more distracted by her feelings for both men than she expected. Break No Bones is a smart, taut thriller featuring the kind of high-stakes crime that makes the headlines every week. Reichs, the inspiration for the hit Fox TV show Bones, is writing at the top of her form, and Tempe has never been more compelling.

A gripping and explosive thriller from internationally acclaimed forensic anthropologist and New York Times bestselling author Kathy Reichs, featuring Temperance Brennan and Detective Andrew Ryan on the trail of a modern murder and an ancient biblical mystery. Examining a badly decomposed corpse is de rigeueur for forensic anthropologist Temperance Brennan. But when an Orthodox Jewish man is shot in Montreal and Tempe is called to the scene, she discovers puzzling damage on the body that suggests it was no ordinary murder. When a stranger slips Tempe a photograph of a skeleton unearthed at an archaeological site, she soon uncovers chilling ties between the dead man and secrets long buried in the dust of Israel. With Detective Andrew Ryan, Tempe plunges into an international mystery as old as Jesus that centres on the supposed discovery of Christ's tomb. But each breakthrough raises more radical questions, and the stakes mount ever higher. Has a mastermind lured Tempe into an elaborate hoax? Or is there some truth in the swirling controversy? If so, Tempe may be on the brink of rewriting two thousand years of history—if she can survive the foes dead set on burying her first.

Forensic anthropologist Tempe Brennan investigates the death of a man who appears to have died while engaged in a bizarre sexual act and who was originally declared dead four decades earlier.

Her plans for a romantic vacation interrupted by the discoveries of two murdered bodies and a small plane crash, Tempe Brennan traces leads to an isolated North Carolina farm.

From New York Times bestselling author Kathy Reichs, Grave Secrets is a bone-chilling Tempe Brennan novel of international black marketeering, decades-old mass murder, and contemporary homicide, now repackaged in a new trade paperback edition. They are "the disappeared," twenty-three massacre victims buried in a well in the Guatemalan village of Chupan Ya two decades ago. Leading a team of experts on a meticulous, heartbreaking dig, Tempe Brennan pieces together the violence of the past. But a fresh wave of terror begins when the horrific sounds of a fatal attack on two colleagues come in on a blood-chilling satellite call. Teaming up with Special Crimes Investigator Bartolomé Galiano and Montreal detective Andrew Ryan, Tempe quickly becomes enmeshed in the cases of four privileged young women who have vanished from Guatemala City—and finds herself caught in deadly territory where power, money, greed, and science converge.

#1 New York Times bestselling author Kathy Reichs returns with an "edgy, eerie, irresistible" (Sandra Brown) novel with "plenty of twists" (The New York Times Book Review) featuring forensic anthropologist Temperance Brennan, who must use her skills to discover the identity of a faceless corpse, its connection to a decade-old missing child case, and why the dead man had her cell phone number. It's sweltering in Charlotte, North Carolina, and Temperance Brennan, still recovering from neurosurgery following an aneurysm, is battling nightmares, migraines, and what she thinks might be hallucinations when she receives a series of mysterious text messages, each containing a new picture of a corpse that is missing its face and hands. Immediately, she's anxious to know who the dead man is, and why the images were sent to her. An identified corpse soon turns up, only partly answering her questions. To win answers to the others, including the man's identity, she must go rogue, working mostly outside the system. That's because Tempe's new boss holds a fierce grudge against her and is determined to keep her out of the case. Tempe bulls forward anyway, even as she begins questioning her instincts. But the clues she discovers are disturbing and confusing. Was the faceless man a spy? A trafficker? A target for assassination by the government? And why was he carrying the name of a child missing for almost a decade? With help from law enforcement associates including her Montreal beau Andrew Ryan and the quick-witted, ex-homicide investigator Skinny Slidell, and utilizing new cutting-edge forensic methods, Tempe draws closer to the astonishing truth. "A complete success" (Booklist, starred review), "this is Kathy Reichs as you've never read her before" (David Baldacci).

In Kathy Reichs's tenth bestselling novel featuring forensic anthropologist Temperance Brennan, the discovery of a young girl's skeleton in Acadia, Canada might be connected to the disappearance of Tempe's childhood friend. For Tempe Brennan, the discovery of a young girl's skeleton in Acadia, Canada, is more than just another case. Evangeline, Tempe's childhood best friend, was also from Acadia. Named for the character in the Longfellow poem, Evangeline was the most exotic person in Tempe's eight-year-old world. When Evangeline disappeared, Tempe was warned not to search for her, that the girl was "dangerous." Thirty years later, flooded with memories, Tempe cannot help wondering if this skeleton could be the friend she had lost so many years ago. And what is the meaning of the strange skeletal lesions found on the bones of the young girl? Meanwhile, Tempe's beau, Ryan, investigates a series of cold cases. Two girls dead. Three missing. Could the New Brunswick skeleton be part of the pattern? As Tempe draws on the latest advances in forensic anthropology to penetrate the past, Ryan hunts down a serial predator.
