Urban planning, also known as regional planning, town planning, city planning, or rural planning, is a technical and political process that is focused on the development and design of land use and the built environment, including air, water, and the infrastructure passing into and out of urban areas, such as transportation, communications, and distribution networks.

Urban planning - Wikipedia

You will be expected to expand your perception of design and sustainability and to explore possible interventions for a more sustainable future. The aim of the course is to utilise principles of sustainability as an integrated discipline throughout the design process. You will be guided through design principles including areas such as observation, idea generation and prototyping.
