Those aspects of language use that are crucial to an understanding of language as a system, and especially to an understanding of meaning, are the acknowledged concern of linguistic pragmatics. This textbook provides a lucid and integrative analysis of the central topics in pragmatics - deixis, implicature, presupposition, speech acts, and conversational structure. A central concern of the book is the relation between pragmatics and semantics, and Dr Levinson shows clearly how a pragmatic approach can resolve some of the problems semantics have been confronting and simplifying semantic analyses. The exposition is always clear and supported by helpful exemplification. The detailed analyses of selected topics give the student a clear view of the empirical rigour demanded by the study of linguistic pragmatics, but Dr Levinson never loses sight of the rich diversity of the subject. An introduction and conclusion relate pragmatics to other fields in linguistics and other disciplines concerned with language usage - psychology, philosophy, anthropology and literature.

Dhuoda of Septimania was a remarkable Carolingian aristocrat who wrote a Liber Manualis of biblically based practical directions for her at times wayward warrior son. Her method of interpreting the Bible is of special interest. The meaning of the ancient Old Testament texts opened up for her not through allegory, as it did for Origen, but through a sense of experience shared across the centuries. The tales of the religious experiences of Israel were seen by her as family experiences, involving a sense of genuine continuity. Or, from another direction, she used the concrete experiences of her life to find a special meaning in the biblical text. Mayeski explores this approach in considerable detail through Dhuoda's interpretation of the story of the Syro-Phoenician woman in Matthew 15:21-25 and Mark 7:24-30. Interpreting it for her son, she speaks of the encouragement that can be found there in the way that God supplies the food of grace to those who persist in seeking it. She also uses the beatitudes as an outline of a treatise on her son's responsibilities as a member of the ruling class. Underlying her practical bent is the vision of human life as a journey toward the kingdom of God, with its need for alertness and its sense of motion.
