me or forgive me. Just know I did the best I knew to do. I was just tryin' to make you tough enough to deal with the world. To stand tall among men, I knew you had to be strong and have yo' own mind." "You were preparing me for war, Grandfather." Guy Johnson, the author of the critically acclaimed debut *Standing at the Scratch Line*, continues the Tremain family saga. Jackson St. Clair Tremain hasn't spoken to his grandfather King in nearly twenty years. Disgusted by the violence and bloodlust that seemed to be his grandfather's way of life, Jackson chose to distance himself from King and live a simpler life. But now King is gravely ill, and his impending death places Jackson's life—as well as those of his family and friends—in jeopardy. Reluctantly, Jackson travels to Mexico to see King. But after a brief reconciliation, his grandfather is assassinated, and Jackson suspects that his grandmother Serena may have had a hand in it. Jackson takes control of King's organization, and as he does, he reflects on the summers he spent in Mexico as a child and the lessons he learned there at the knee of his strong-willed, complex grandfather. In *Echoes of a Distant Summer*, Guy Johnson introduces us to a new hero, Jackson St. Clair Tremain, who learns that, like his grandfather, he must be willing to protect those he loves—at all costs.

In 1970, in the deadly A Shau Valley and the adjacent eastern mountainous jungles of South Vietnam, Operation Texas Star would become the last major battle of the Vietnam War fought by US Forces. Fought over a fierce five months, the battle began in March and lasted into September. During this time, author Eraldo Lucero was serving in the 101st Airborne. This is his story. Lucero's story of the courageous men who fought is a microcosm that sheds light on the reality of war. Bracingly honest, Lucero accurately depicts the sheer terror of war and its psychological effects long after the battles are over, revealing the unseen wounds of the soldiers who risked their lives to win a war most Americans

tried to forget. Thirty-five years after the war's end, the author reconnects with fellow Vietnam veterans and in a sobering commentary on the effects of war, illustrates its lingering presence in the combat veteran's daily life. Inspired by his own battles with post-traumatic stress disorder and the fact that the battle of Hills 714 and 882 during Operation Texas Star has never been fully covered, Lucero leads us into the hell of the jungles of Vietnam and the infamous A Shau Valley. The A Shau Valley and its environs are as much a character as the men themselves, an unrelenting quagmire of violence and death that forever changed any man involved in its brutality. *Echoes of a Distant Past: Screaming Eagles, A Vietnam War Memoir* gives readers a firsthand look at the Vietnam War as only the combat infantrymen experienced it.

Raised in the steamy bayous of New Orleans in the early 1900s, LeRoi "King" Tremain, caught up in his family's ongoing feud with the rival DuMont family, learns to fight. But when the teenage King mistakenly kills two white deputies during a botched raid on the DuMonts, the Tremain's fear of reprisal forces King to flee Louisiana. King thus embarks on an adventure that first takes him to France, where he fights in World War I as a member of the segregated 369th Battalion—in the bigoted army he finds himself locked in combat with American soldiers as well as with Germans. When he returns to America, he battles the Mob in Jazz Age Harlem, the KKK in Louisiana, and crooked politicians trying to destroy a black township in Oklahoma. King Tremain is driven by two principal forces: He wants to be treated with respect, and he wants to create a family dynasty much like the one he left behind in Louisiana. This is a stunning debut by novelist Guy Johnson that provides a true depiction of the lives of African-Americans in the early decades of the twentieth century.

In December 1958, Ken Martin, his wife Barbara, and their three young daughters left their home in Northeast Portland to search for Christmas greens in the Columbia River Gorge—and never returned. The Martins' disappearance spurred the largest missing persons search in Oregon history and the mystery has remained perplexingly unsolved to this day. For the past six years, JB Fisher (Portland on the Take) has pored over the case after finding in his garage a stack of old Oregon Journal newspaper articles about the story. Through a series of serendipitous encounters, Fisher obtained a wealth of first-hand and never-before publicized information about the case including police reports from several agencies, materials and photos belonging to the Martin family, and the personal notebooks and papers of Multnomah County Sheriff's Detective Walter E. Graven, who was always convinced the case was a homicide and worked tirelessly to prove it. Graven, however, faced real resistance from his superiors to bring his findings to light. Used as a trail left behind after his 1988 death to guide future researchers, Graven's personal documents provide fascinating insight into the question of what happened to the Martins—a path leading to abduction and murder, an intimate family secret, and civic corruption going all the way to the Kennedys in Washington, DC.

It feels like paradise, but deadly secrets lie beneath the waves off the coast of Kauai. Sometimes Kaia Oana thinks her dolphins are more humane than humans. As a mammal intelligence researcher, Kaia has learned a thing or two about the goodness and intelligence of dolphins—and as a natural scientist in close proximity to weapons developers, she's learned a thing or two about humans as well. When a tourist catamaran explodes off the coast of the Hawaiian island of Kauai, Kaia and her trained dolphin, Nani, rush to aid the search and rescue effort. After hours of searching, an exhausted Kaia is pulled from the water by Lieutenant Commander Jesse Matthews of the U.S. Navy. Lieutenant Matthews is accustomed

to following protocol—and a civilian-dolphin rescue is not typical operating procedure. But when his colleagues ignore the possibility that missile research had something to do with the sunken catamaran, Jesse recruits Kaia and her dolphin to help him conduct his own investigation. The olive-skinned mermaid had impressed him—in more ways than one. As their rogue investigation takes them into the waters surrounding the sunken boat—and their personal chemistry takes them into other uncharted territory—Kaia and Jesse discover that they have become targets themselves. Someone doesn't want them snooping around that wreckage . . . someone desperate enough to kill.

Bestselling, award-winning author Val McDermid delivers her most stunning story yet in *The Distant Echo*—an intricate, thought-provoking tale of murder and revenge. Four in the morning, mid-December, and snow blankets St. Andrews School. Student Alex Gilbery and his three best friends are staggering home from a party when they stumble upon the body of a young woman. Rosie Duff has been raped, stabbed and left for dead in the ancient Pictish cemetery. The only suspects are the four young students stained with her blood. Twenty-five years later, police mount a cold case review. Among the unsolved murders they're examining is that of Rosie Duff. But someone else has his own idea of justice. One of the original quartet dies in a suspicious house fire and soon after, a second is killed. Alex fears the worst. Someone is taking revenge for Rosie Duff. And it might just save his life if he can uncover who really killed Rosie all those years ago.
