Great collector cars are still out there--just waiting to be found! Sadly, there is very little reality in reality TV. That wouldn't be so bad except for the fact that these shows are the only TV shows for the barn-find collector car aficionado. Barn Find Road Trip is the antidote to all the manufactured collector "reality" shows. It's a real-world, barn-find banzai run in which auto archaeologist Tom Cotter, his car collector pal Brian Barr, and photographer Michael Alan Ross embarked on a 14-day collector-car-seeking adventure with no predetermined destinations. It's barn-find freestyle! Roaming the Southeast, they documented their day-to-day car search in photos and through stories and interviews. This trip is absolutely real and the same kind of junket any gearhead with the

skills, knowledge, and time can undertake. Cotter and company hit the road in Cotter's 1939 Ford Woody, the kind of car that opened doors and started the conversations that revealed where interesting cars were squirreled away. The result? The discovery of over 1,000 collector cars and some of the most amazing barn-find stories Cotter has yet unearthed, all accompanied by Ross' evocative photography. If you love stories of automotive adventure, this is the book for you!

"More than a truck and more than a car," the unique Ranchero would take many forms, and this class act was a vital part of the big Blue Ovals lineup for more than two decades. Far from being just another pretty face, rugged Rancheros did their part to build national prosperity and keep America on the move. Meticulously researched in Fords archives, automotive historian James C. Mays

pays tribute to Ranchero, telling the complete story in rich detail. Includes prices and options lists, plus production, sales and export figures. This indispensable reference also offers the unique Canada-only Meteor Rancheros, as well as the Australian versions.

This colorful book captures some of the most beautiful and rare scale models of American Ford, Edsel, Lincoln, and Mercury cars and light trucks from the classic 1930-69 period. During the last thirty years, a small number of builders have devoted themselves to making, by hand, model cars in scale. Often limited to only a few hundred pieces, these unusual and expensive models have flawless finishing and astounding detail. For the first time ever in one source, the author has assembled hundreds of high-resolution color photographs from his and others' private collections, and from the

builders themselves. Read about the history of these Ford replicas, the cars they are modelled upon, and learn where you can get them. This book is a must read for people who enjoy scale models and Ford Motor Company cars.

This book details the evolution of Ford's family car through the golden era of Detroit. It tells how Henry took the no-frills Fairlane, added more zing to create the Torino, and satisfied America's luxury desires with the LTD II; and follows the evolution of Ford's midsize muscle cars, to the creation of the first car-based pickup – the Ranchero.

Includes Part 1, Number 1 & 2: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - December)

There are two kinds of classic car buffs: those who have restored an old car, and those who want to. For anyone who has looked at a rusty heap in a field and seen only the gleaming new machine it once was, the urge is powerful, but also intimidating. Restoration can be a difficult, expensive, and--especially for the novice--mysterious undertaking. Dave Floyd, an enthusiast with a lifelong love for the great cars on the road in his youth, is one who answered the call. In this book he traces every step of restoring a long-neglected 1948 Chrysler New Yorker to its original glory, all on a real-world budget and in the spare hours left by a full-time job. Every task, every discovery, every obstacle, every triumph and

frustration comes through in a detailed account that is part diary, part practical guide, part love story. Told with great charm, his story is inspiring to any prospective old-car hobbyist, and a special treat for Chrysler devotees.
