In 1998, Frank Schaeffer was a bohemian novelist living in "Volvo driving, higher-education worshipping" Massachusetts with two children graduated from top universities. Then his youngest child, straight out of high school, joined the United States Marine Corps. Written in alternating voices by eighteen-year-old John and his father, Frank, Keeping Faith takes readers in riveting fashion through a family's experience of the Marine Corps: from being broken down and built back up on Parris Island (and being the parent of a child undergoing that experience), to the growth of both father and son and their separate reevaluations of what it means to serve. From Frank's realization that among his fellow soccer dads "the very words ' boot camp ' were pejorative, conjuring up ' troubled youths at risk" ("But aren't they all terribly southern?" asked one parent") to John's learning that "the Marine next to you is more important than you are," Keeping Faith — a New York Times bestseller — is a fascinating and personal examination of issues of class, duty, and patriotism. The fact that John is currently serving in the Middle East only adds to the impact of this wonderfully written, timely, and moving human interest story.

In this powerful collection by one of today's leading African American intellectuals, Keeping Faith situates the current position of African Americans, tracing the geneology of the "Afro-American Rebellion" from Martin Luther King to the rise of black revolutionary leftists. In Cornel West's hands issues of race and freedom are inextricably tied to questions of philosophy and, above all, to a belief in the power of the human spirit.

Available for the first time in paperback, Keeping Faith is Jimmy Carter 's account of the satisfaction, frustration, and solitude that attend the man in the Oval Office. Keeping Faith is Jimmy Carter 's account of the satisfaction, frustration, and solitude that attend the man in the Oval Office. Mr. Carter writes candidly about the crises that confronted him during his tenure as President of the United States and leader of the free world, from 1977 to 1981. " The President who cared " details his anguish over the hostage crisis in Iran, his triumph against all odds at Camp David, his secret communications with China 's Deng Xiaoping, and his dramatic and revealing encounters with Soviet President Leonid Brezhnev, West German Chancellor Helmut Schmidt, and other world leaders. Mr. Carter also shares glimpses of his private world—his feelings of being an outsider in Washington, his relationship with Rosalynn, his pain about the attacks on his friends and his brother Billy. Captivatingly written, this rich historical document delineates a morally responsible president who has continued to earn respect and admiration as a world statesman and advocate for the poor and repressed of all nations.

“ You can 't trust the Bible — it 's full of hundreds of contradictions. ” Really? Just because the critic mindlessly declares it so? Don 't be so fast to believe everything you hear! In this book Dr. Jason Lisle examines 420 claims of Bible contradictions and sets the record straight. Contradiction #139 Was Abraham justified by faith or by works? Romans 4:2 - says by faith VS. James 2:21 - says by works Bifurcation fallacy. Abraham was justified both by faith and by works (James 2:24, 26). To “ justify ” means either to be in right moral standing or to show that one is (morally) in right standing. Abraham was justified by faith before God since God knows all things — including Abraham 's faith (James 2:23). God sees our hearts (1 Samuel 16:7), so we are justified before God by our faith alone, which God can see. But men cannot see another man 's faith. They only see the outward works that follow from inward faith. Therefore, Abraham was justified before men by the works that followed from his faith, since men cannot see faith but can see works. James explicitly teaches this (James 2:18–26).

'The sheer range of West's interests and insights is staggering and exemplary: he appears equally comfortable talking about literature, ethics, art, jurisprudence, religion, and popular-cultural forms.' - Artforum Keeping Faith is a rich, moving and deeply personal collection of essays from one of the leading African American intellectuals of our age. Drawing upon the traditions of Western philosophy and modernity, Cornel West critiques structures of power and oppression as they operate within American society and provides a way of thinking about human dignity and difference afresh. Impressive in its scope, West confidently and deftly explores the politics and philosophy of America, the role of the black intellectual, legal theory and the future of liberal thought, and the fate of African Americans. A celebration of the extraordinary lives of ordinary Americans, Keeping Faith is a petition to hope and a call to faith in the redemptive power of the human spirit.
