The Health Act 1999, as amended by the Health and Social Care Act 2008, is the primary legislation which enabled the GPhC to be established via the Pharmacy Order 2010. The Act enabled all the regulatory functions of the Royal Pharmaceutical Society of Great Britain to be transferred to the GPhC. The Act also allows for the transfer of regulatory functions from the Pharmaceutical Society of Northern Ireland to the GPhC in the future, subject to a decision by Northern Ireland Ministers.

"Laws Affecting Clinical Practice is a comprehensive, concise, readily understandable resource outlining the legal obligations and responsibilities of mental health professionals (MHPs). Identifying legal topics affecting mental health practices and services, Sales, Miller, and Hall address a wide range of legal topics, including licensing; privacy of professional information; practice laws related to families, juveniles, civil matters, and criminal matters; and limitations on and liability for practice. The laws surveyed are expressed with minimal legal jargon, making this volume maximally accessible to those outside of the legal profession. Laws Affecting Clinical Practice is an essential introduction to clinically relevant laws for MHPs, as well as graduate students training to become MHPs. It will guide readers to become intelligent consumers of legal services. (PsycINFO Database Record (c) 2006 APA, all rights reserved)"--Jacket.

To practice nursing effectively today requires a sound understanding of the legal system and the laws specifically affecting nurses. Legal and Ethical Standards for Nurses is filled with practical information, covering topics such as delegation, documentation, professional liability insurance, regulatory issues, advance directives and many others! While these are exciting and challenging times for nurses clinically, they are equally challenging legally. It is, therefore, increasingly important that each nurse learn how to protect herself and her nursing license. The 4th Edition includes an expanded discussion of healthcare fraud and the False Claims To practice nursing effectively today requires a sound understanding of the legal system and the laws specifically affecting nurses. regulatory issues, advance directives and many others! While these are exciting and challenging times for nurses clinically, they are equally challenging legally. It is, therefore, increasingly important that each nurse learn how to protect herself and her nursing license. The 4th Edition includes an expanded discussion of healthcare fraud and the False Claims Act, information about the HITECH Act has been added, and there is a section about the impact of HIPAA on the use and disclosure of protected health information. Issues with new technologies, such as electronic communications and medical records, are also addressed. And there is a new chapter on staffing issues, including handling questionable assignments and mandatory overtime, as well as a discussion of Allow-natural-death orders. All chapters include the update on applicable laws and case law. Act, information about the HITECH Act has been added, and there is a section about the impact of HIPAA on the use and disclosure of protected health information. Issues with new technologies, such as electronic communications and medical records, are also addressed. And there is a new chapter on staffing issues, including handling questionable assignments and mandatory overtime, as well as a discussion of Allow-natural-death orders. All chapters include the update on applicable laws and case law.

Trainees consistently mentioned how helpful it was to have laws relevant to their clinical practice explained in a way that removed the mystery and anxiety associated with lawyers, courts, and judges. Each volume in the series sets forth, in a clear, straightforward, and user-friendly manner, pertinent legislation and court cases, covering why the law was written, what the law says, and how the law affects clinical practice.

This book provides a comprehensive resource for medical professionals on the various legal aspects involved in conducting clinical research. It encompasses legal and ethical issues such as duty of care, research malpractice and negligence, standards of care, informed consent, liability issues for Institutional Review Boards (IRB), conflicts of interest, insider trading and the disclosure and withholding of clinical trial results. It will also provide legal guidance on research contracts, setting up clinical trials and common legal pitfalls encountered in medical research.

The 5th edition of this highly regarded text has a new title and approach which builds on the foundations of previous editions to acknowledge mental health as essential to holistic nursing practice in every setting. Written by Kim Foster, Peta Marks, Anthony O'Brien and Toby Raeburn - a team of highly respected mental health nursing educators, researchers and clinicians, the new edition has been carefully reorganised to reflect contemporary mental health nursing practice and highlight the value of consumer perspectives. With a key focus on specialist mental health nursing, the new chapters introduce the integration of mental health nursing knowledge and skills across a range of generalist and mental health clinical settings. Mental Health in Nursing, 5th edition is an invaluable resource for all nursing students, whatever their practice area. • Consumer perspectives provided by Jarrad Hickmott, Lived Experience Consultant • Historical anecdotes encourage reflection and understanding of contemporary mental health nursing practice • An eBook included in all print purchases Additional resources on evolve • eBook on VitalSource Instructor resources: • Test bank - MCQ's (with answers and rationales) • Discussion questions • Image collection Student and

Instructor resources: • Consumer stories (a selection of videos from Stories in Mental Health) • Weblinks Restructured and presented in 3 parts: Section 1: Positioning Practice describes the context and importance of nursing in mental health and includes a new chapter on self-care Section 2: Knowledge for Practice addresses the specialist practice of mental health nursing. Each chapter examines specific mental health conditions, assessment, nursing management and relevant treatment approaches Section 3: Contexts of practice features scenario-based chapters with a framework to support mental health screening, assessment, referral and support, across a range of clinical settings

A trusted person-centred resource to start you on the path to professional success Fundamentals of Nursing and Midwifery is a popular foundational nursing text specifically developed for Australian and New Zealand students. This comprehensive resource provides a detailed overview of key information with person-centred care highlighted throughout to focus on the individualistic, interactive and holistic nature of nursing and midwifery practice. It uses accessible language that introduces students to the 'why' as well as the 'how' of nursing and midwifery. It focuses not only on a person's physical healthcare needs, but also on the intellectual, emotional, sociocultural and spiritual aspects of care. In this way, students learn to be holistic health care professionals while acquiring the foundational knowledge, procedures and skills required for successful nursing or midwifery practice.
