Louisiana 4th Grade Math

demand for books that will help their children succeed and excel on the fourth grade assessment tests in math and English –especially in areas where children have limited access to computers. This book will help students practice basic math concepts, i.e., number sense and applications as well as more difficult math, such as patterns, functions, and algebra. English skills will include practice in reading comprehension, writing, and vocabulary. Rubrics are included for self-evaluation.

The state of Louisiana has spent a large amount of money over the past years to ensure highly qualified teachers for every student. This study aimed to discover whether or not there was a statistically significant association between teachers who

Download File PDF

Louisiana 4th Grade Math

attain National Board certification and student gains in achievement on standardized tests specifically the Louisiana Educational Assessment Program (LEAP) in an urban Louisiana school district. The research was to determine if students taught by Nationally Board Certified teachers (NBCTs) outperformed students of comparable backgrounds taught by Non-Nationally Board Certified Teachers (Non-NBCTs). To accomplish this, the research examined English Language Arts and Mathematics test scores of fourth and eighth grade students taught by NBCTs and compared them with those of students taught by Non-NBCTs to determine if the gains made by the group taught by NBCTs were statistically significantly different from those taught by Non-NBCTs. The

Download File PDF

Louisiana 4th Grade Math

Results of the data analysis indicated that there was a statistically significant difference between the score differences of fourth grade English Language Arts students and eighth grade English Language Arts students taught by NBCTs when compared to those taught by Non-NBCTs. The fourth and eighth grade score differences of students taught by NBCTs were statistically significantly higher. However, the analysis of the data also revealed there was not a statistically significant difference between the score differences of 4th grade math students taught by NBCTs when compared to those taught by Non-NBCTs. There were no NBCTs for 8th grade Mathematics students. One recommendation for further research should be to focus on more than one district to determine if results

Download File PDF

Louisiana 4th Grade Math

would be similar. Another recommendation, the Louisiana Department of Education should study all areas of high-stakes testing within the state to determine if teacher certification, especially NBCTs, have an impact on student achievement. The Louisiana Department of Education's should use its extensive data base for a study determine whether National Board Certification contributes to increases in student achievement across all grade levels.

With a General Education Development (GED) diploma, a Canadian's chance for employment and higher education opportunities increases dramatically. The Canadian GED For Dummies offers Canadians taking the test the edge they need to succeed. Unlike other guides, which
