Their central focus is on the management of organizational performance. Because the framework has been inductively developed, its application is 'tested' against three major systems of organizational control, namely budgeting, economic value added and the balanced scorecard. In each case, neglected areas of development are exposed and fruitful topics for research identified.

management control system is a tool
businesses can use to measure its performance
and to compare its desired objectives against
its actual objectives. By establishing a
management control system, the business makes
it easier to align individual decision making
with the larger organizational objectives.
