Since we can't know in advance how the market will react to an economic release, avoid taking (or being in) trades three minutes before or after a high-impact economic/company-specific data release. Check an economic-calender before the trading day begins, so you know the data release times. Block off those times on your charts, so you know not to take trades, leaving you to focus on each stage as it comes.

This is where market makers come in. Market makers-usually banks or brokerage companies -are always ready to buy or sell at least 100 shares of a given stock at every second of the trading day at the market price. 1 ? 2. Market demand dictates where market makers set their bid prices (what they're willing to pay for shares) and ask prices (how much they're demanding), but market makers must always quote both prices for their trades.

I have seen brand new Forex investors and traders around the world waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets. No one wants that however it is a huge mistake that virtually all brand new Forex traders make because they don't know any better, after reading this book you will. I don't care where you trade from or what you trade, Dubai to Detroit or Mumbai to Manhattan doesn't matter because a chart is a chart and supply and demand is supply and demand, period, live markets don't work any other way no matter where in the world you are or what your trading even camels or goats. New Forex traders all around the world spend waaaay too much time on looking for the magical combination of indicators, settings and colors they think will show them something that is going to help them make more money. There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money that is why. All you need to see is right in front of you on the price chart and that is price and time. Those are the only things that professional Forex traders care about and nothing else. You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty. When you are done reading this book you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in this book will put you on the fast track to becoming a successful self-directed Forex investor and trader no matter where you trade from in the world or what you trade with very little money invested. This book gives you the brutal and harsh truth of what happens in real life, in real time and in real money in the worlds live markets every day. There are no short cuts and you must do the time if you want to drive your own money train to the bank.

Full coverage of ETF investments from an expert in the field The initial edition of Gary Gastineau's The Exchange-Traded Fund Manual was one of the first books to describe and analyze ETFs. It made the case for the superiority of the structure of investor-friendly ETFs over mutual funds and helped investors select better funds among the ETFs available. With this new edition, Gastineau provides comprehensive information on the latest developments in ETF structures, new portfolio variety, and new trading methods. With a realistic evaluation of today's indexes, Gastineau offers insights on actively managed ETFs, improved index funds, and fund and advisor selection. Discusses how to incorporate ETFs into an investment plan Offers updated coverage of new ETFs, including full-function actively managed ETFs, and a valuable chapter on trading ETFs Written by the leading authority on exchange traded funds Exchange-traded funds offer you diversification and participation in markets and investment strategies that have not been available to most investors. If you want to understand how to use ETFs effectively, the Second Edition of The Exchanged-Traded Fund Manual can show you how.
