Medical terminologies are universal to the healthcare or medical industry. It's their very own language and it helps them understand completely what is happening or what has to be done to help a patient. This language is not just limited to doctors, nurses and/or medical practitioners.

*The Importance of Medical Terminology | 360 Training*

From the perspective of most insurers, a health care provider is any one who provides patients with health care. This definition would include every one in the AMA's list of health professionals but it's much broader: A home health care company that sends a visiting nurse to a patient's home. A medical equipment company that makes oxygen tanks or wheelchairs available. Pharmacies. Medical laboratories. Imaging facilities that process mammograms and MRIs.
