Gasoline engines. The JH4 was an F-head engine based on the Willys Hurricane engine and its predecessor Willys Go-Devil sidevalve four, and was used to power early Mitsubishi Jeeps as well as Mitsubishi Fuso trucks and buses. It was of 2.2 L (2,199 cc), had 69 HP and formed the basis for the KE31, a diesel engine of the same dimensions. Several other engines had been taken over from Mitsubishi ...

The Turn analyzes the research of information seeking and retrieval (IS&R) and proposes a new direction of integrating research in these two areas: the fields should turn off their separate and narrow paths and construct a new avenue of research. An essential direction for this avenue is context as given in the subtitle Integration of Information Seeking and Retrieval in Context. Other essential themes in the book include: IS&R research models, frameworks and theories; search and works tasks and situations in context; interaction between humans and machines; information acquisition, relevance and information use; research design and methodology based on a structured set of explicit variables - all set into the holistic cognitive approach. The present monograph invites the reader into a construction project - there is much research to do for a contextual understanding of IS&R. The Turn represents a wide-ranging perspective of IS&R by providing a novel unique research framework, covering both individual and social aspects of information behavior, including the generation, searching, retrieval and use of information. Regarding traditional laboratory information retrieval research, the monograph proposes the extension of research toward actors, search and work tasks, IR interaction and utility of information. Regarding traditional information seeking research, it proposes the extension toward information access technology and work task contexts. The Turn is the first synthesis of research in the broad area of IS&R ranging from systems oriented laboratory IR research to social science oriented information seeking studies.

This book presents the papers from the Internal Combustion Engines: Performance, fuel economy and emissions held in London, UK. This popular international conference from the Institution of Mechanical Engineers provides a forum for IC engine experts looking closely at developments for personal transport applications, though many of the drivers of change apply to light and heavy duty, on and off highway, transport and other sectors. These are exciting times to be working in the IC engine field. With the move towards downsizing, advances in FIE and alternative fuels, new engine architectures and the introduction of Euro 6 in 2014, there are plenty of challenges. The aim remains to reduce both CO2 emissions and the dependence on oil-derivate fossil fuels whilst meeting the future, more stringent constraints on gaseous and particulate material emissions as set by EU, North American and Japanese regulations. How will technology developments enhance performance and shape the next generation of designs? The book introduces compression and internal combustion engines` applications, followed by chapters on the challenges faced by alternative fuels and fuel delivery. The remaining chapters explore current improvements in combustion, pollution prevention strategies and data comparisons. presents the latest requirements and challenges for personal transport applications gives an insight into the technical advances and research going on in the IC Engines field provides the latest developments in compression and spark ignition engines for light and heavy-duty applications, automotive and other markets

Not every life purports a North Star of instruction as experienced at a small southern military college. This is not to say that life's most admired guidelines cannot be engaged elsewhere. However, at The Citadel, there is a definitive and measured four-year avenue to frame the promise of a life well lived. Typically, an eighteen-year-old enters and emerges as a well-rounded, goal-oriented, and ethically-adept twenty-two-year-old. The unique and regimented environment sets the course. In this volume, author W. Thomas McQueeney investigates, explores, and charts the other-than-classroom characteristics that become the "toolbox" of the graduate. This impressive array of values engenders a lifelong ideal in areas to include time management, societal interaction, volunteerism, professional priorities, spirituality, teamwork, leadership, determination, and capacity - just to name a few. "I've found that so many graduates from my era have taken what's been ingrained and turned their lives into exemplary stories of production and perseverance," McQueeney stated. "And by staying engaged at the college, it became clear to me that The Citadel experience has remained as a foundation of multi-faceted successes for so many lives - seen in the military, the corporate world, education, business, and especially in the various religious callings. That observation led me to the idea of cataloguing the full immersive experience so that those values are not only identified and reinforced but extolled." This publication champions an experience focus with lessons that are universal and timeless. As a bonus, the book contains the author's Citadel campus-scenery photography along with the ribald side of Citadel Life as expressed in the cartoons of Ray Mayer '74.

Thrilling, heartbreaking, and, at times, absurdly funny, The Last Resort is a remarkable true story about one family in a country under siege and a testament to the love, perseverance, and resilience of the human spirit. Born and raised in Zimbabwe, Douglas Rogers is the son of white farmers living through that country` s long and tense transition from postcolonial rule. He escaped the dull future mapped out for him by his parents for one of adventure and excitement in Europe and the United States. But when Zimbabwe` s president Robert Mugabe launched his violent program to reclaim white-owned land and Rogers` s parents were caught in the cross fire, everything changed. Lyn and Ros, the owners of Drifters—a famous game farm and backpacker lodge in the eastern mountains that was one of the most popular budget resorts in the country—found their home and resort under siege, their friends and neighbors expelled, and their lives in danger. But instead of leaving, as their son pleads with them to do, they haul out a shotgun and decide to stay. On returning to the country of his birth, Rogers finds his once orderly and progressive home transformed into something resembling a Marx Brothers romp crossed with Heart of Darkness: pot has supplanted maize in the fields; hookers have replaced college kids as guests; and soldiers, spies, and teenage diamond dealers guzzle beer at the bar. And yet, in spite of it all, Rogers` s parents—with the help of friends, farmworkers, lodge guests, and residents—among them black political dissidents and white refugee farmers—continue to hold on. But can they survive to the end? In the midst of a nation stuck between its stubborn past and an impatient future, Rogers soon begins to see his parents in a new light: unbowed, with passions and purpose renewed, even heroic. And, in the process, he learns that the "big story" he had relentlessly pursued his entire adult life as a roving journalist and travel writer was actually happening in his own backyard. Evoking elements of The Tender Bar and Absurdistan, The Last Resort is an inspiring, coming-of-age tale about home, love, hope, responsibility, and redemption. An edgy, roller-coaster adventure, it is also a deeply moving story about how to survive a corrupt Third World dictatorship with a little innovation, humor, bribery, and brothel management.

In a world of Mr. Right Nows, a guide to Mr. Right... Chock full of solid advice, this guide for women offers exercises to help the reader learn more about herself. She then uses that information to recognize mates with compatible qualities. In it are the five myths about Mr. Right, the seven deadly sins that women make while dating, how to spot Mr. Wrong, where to meet Mr. Right, dating DOs and DON'Ts, and much more. From the editors of John Gray's MarsVenus.com and relationship editors of SingleMindedWomen.com

After learning that her life's purpose is to fulfill a prophecy to save our world, Roam finds that she is pregnant- and missing the love of her life with all of her heart. Logan, her best friend, stands by her, helping her to find a way back to West... despite his own love for her.On a journey that will take her to another body and life in 1955 and, eventually, to another world, Roam will discover that before she can rise and protect our world and her child from an immortal evil...She must fall.
