Until the late nineteenth century, the Chinese-Korean Tumen River border was one of the oldest, and perhaps most stable, state boundaries in the world. Spurred by severe food scarcity following a succession of natural disasters, from the 1860s, countless Korean refugees crossed the Tumen River border into Qing-China's Manchuria, triggering a decades-long territorial dispute between China, Korea, and Japan. This major new study of a multilateral and multiethnic frontier highlights the competing state- and nation-building projects in the fraught period that witnessed the Sino-Japanese War, the Russo-Japanese War, and the First World War. The power-plays over land and people simultaneously promoted China's frontier-building endeavours, motivated Korea's nationalist imagination, and stimulated Japan's colonialist enterprise, setting East Asia on an intricate trajectory from the late-imperial to a situation that, Song argues, we call modern.

This book presents a great deal of new primary research on a wide range of aspects of early modern East Asia. Focusing primarily on maritime connections, the book explores the importance of international trade networks, the implications of technological dissemination, and the often unforeseen consequences of missionary efforts. It demonstrates the benefits of a global history approach, outlining the complex interactions between Western traders and Asian states and entrepreneurs. Overall, the book presents much interesting new material on this complicated and understudied period. .

"This comprehensive text covers the history of women and gender in Japan, Korea, and China in the early modern and modern eras by examining the dynamic histories of sexuality; gender ideology, discourse, and legal construction; marriage and the family; and the gendering of work, society, and power. The authors take the unique approach of locating gender history within a society's national history as well as describing its role in an integrated history of East Asia. In addition, this book examines the global context of historical changes in these countries and highlights cross-cultural themes that transcend national boundaries. For example, themes or concepts such as "writing," "the body," "feminism," "immigration and diasporas," and "Confucianism" are part of an integrated history. The authors capture the flow of ideas, people, materials, and texts throughout these three countries in an easily accessible way for students"--

Religious ideas and actors have shaped Asian cultural practices for millennia and have played a decisive role in charting the course of its history. In this engaging and informative book, Thomas David DuBois sets out to explain how religion has influenced the political, social, and economic transformation of Asia from the fourteenth century to the present. Crossing a broad terrain from Tokyo to Tibet, the book highlights long-term trends and key moments, such as the expulsion of Catholic missionaries from Japan, or the Taiping Rebellion in China, when religion dramatically transformed the political fate of a nation. Contemporary chapters reflect on the wartime deification of the Japanese emperor, Marxism as religion, the persecution of the Dalai Lama, and the fate of Asian religion in a globalized world.

Visualizing Beauty examines the intersections between feminine ideals and changing socio-political circumstances in China, Japan, and Korea during the first half of the twentieth century. Eight essays present a broad range of visual products that informed concepts of beauty and womanhood, including fashion, interior design magazines, newspaper illustrations, and paintings of and by women. Studying "Traditional Woman" and "New Woman" as historical categories, this anthology contemplates the complex relations between feminine subjectivity and the promotion of modernity, commerce, and colonialism.
