To help me reflect upon my practice from my first placement to my second placement, I will use Driscoll's model of reflection (Driscoll's model 2000). Driscoll's model uses three stages to help analyse practice; what happened; providing a description of the event, what have you learned; giving an account of how you felt at the time and what you have learned after revisiting the experience and finally your proposed actions for the future and how you are going to implement what you have

The terms 'critical reflection' and 'reflective practice' are at the heart of modern healthcare. But what do they really mean? Building on its groundbreaking predecessor, entitled *Critical Reflection for Nursing and the Helping Professions*, this heavily revised second edition analyses and explores reflection. It presents a structured method that will enable you to both challenge and develop your own practice. This book is the essential guide to critical reflection for all students, academics and practitioners.
