wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- In *Statistics for Business: Decision Making and Analysis*, authors Robert Stine and Dean Foster of the University of Pennsylvania's Wharton School, take a sophisticated approach to teaching statistics in the context of making good business decisions. The authors show students how to recognize and understand each business question, use statistical tools to do the analysis, and how to communicate their results clearly and concisely. In addition to providing cases and real data to demonstrate real business situations, this text provides resources to support understanding and engagement. A successful problem-solving framework in the 4-M Examples (Motivation, Method, Mechanics, Message) model a clear outline for solving problems, new What Do You Think questions give students an

alone, and does NOT come with access to MyStatLab. Buy the book and access card package to save money on this resource. For one or two semester Business Statistics courses. A direct approach to business statistics, ordered in a signature step-by-step framework. Students could have a competitive edge over new graduates and experienced employees if they know how to apply statistical analysis skills to real-world, decision-making problems. To help students achieve this advantage, Business Statistics uses a direct approach that consistently presents concepts and techniques in way that benefits students of all mathematical backgrounds. This text also contains engaging business examples to show the relevance of business statistics in action. The eighth edition provides even more learning aids to help students understand the material.
