*Parent-Physician Conversations ...*

This book examines parent-physician conversations in detail, showing how parents put pressure on doctors in largely covert ways, for instance in specific communication practices for explaining why they have brought their child to the doctor or answering a history-taking question. This book also shows how physicians yield to this seemingly subtle pressure evidencing that apparently small differences in wording have important consequences for diagnosis and treatment recommendations.

## *Prescribing under Pressure: Parent-Physician Conversations ...*

The answer appears to lie in the fundamentally social nature of medical practice: physicians do not prescribe as the result of a clinical algorithm but prescribe in the context of a conversation with a parent and a child. Thus, physicians have a classic social dilemma which pits individual parents and children against a greater social good. This book examines parent-physician
