REPLICA is the breathtaking new SF novel from JENNA BLACK, author of the Faeriewalker series. Sixteen-year-old Nadia Lake's marriage has been arranged with the most powerful family in the Corporate States. She lives a life of privilege even if she has to put up with paparazzi tracking her every move, every detail of her private life tabloid fodder. But her future is assured, as long as she can maintain her flawless public image—no easy feat when your betrothed is a notorious playboy. Nathaniel Hayes is the heir to the company that pioneered human replication: a technology that every state and every country in the world would kill to have. Except he's more interested in sneaking around the seedy underbelly of the state formerly known as New York than he is in learning to run his future company or courting his bride-to-be. She's not exactly his type...not that he can tell anyone that. But then Nate turns up dead, and Nadia was the last person to see him alive. When the new Nate wakes up in the replication tanks, he knows he must have died, but with a memory that only reaches to his last memory back-up, he doesn't know what—or rather, who—killed him. Together, Nadia and Nate must discover what really happened without revealing the secrets that those who run their world would kill to protect. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Resistance is the second installment in acclaimed author Jenna Black's YA SF romance series. Nate Hayes is a Replica. The real Nate was viciously murdered, but thanks to Paxco's groundbreaking human replication technology, a duplicate was created that holds all of the personality and the memories of the original. Or...almost all. Nate's backup didn't extend to the days preceding his murder, leaving him searching for answers about who would kill him, and why. Now, after weeks spent attempting to solve his own murder with the help of his best friend and betrothed, Nadia Lake, Nate has found the answers he was seeking...and he doesn't like what he's discovered. The original Nate was killed because he knew a secret that could change everything. Thanks to Nadia's quick thinking, the two of them hold the cards now—or think they do. Unfortunately, neither of them fully understands just how deep the conspiracy runs. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

When Dana is invited to Faerie to be officially presented at the Seelie Court, it's no easy decision. After all, everyone knows Titania, the Seelie Queen, wants her dead. But Titania claims not to be the one behind the death threats; and her son, Prince Henry, makes the decision a whole lot easier when he suggests Dana might be arrested for (supposedly) conspiring with her aunt Grace to usurp the Seelie throne. So she and her father better do as they're told . . . The journey through Faerie is long—and treacherous. Dana thought it would be a good idea to have friends along, but her sort-of-boyfriend, Ethan, and her bodyguard's son, Keane, just can't seem to get along, and Kimber's crush on Keane isn't making things any easier. When a violent attack separates Dana from their caravan, the sexy Erlking saves her just in the nick of time . . . and makes it clear that he hasn't given up on making her his own. Arriving at Titania's beautiful palace should be a relief. But Dana is soon implicated in an assassination attempt against Titania's granddaughter, and is suddenly a fugitive, forced to leave her father behind as she and her friends flee for their lives. Will she be able to prove her innocence before the forces of the Seelie Court—or, worse, the Erlking—catch up with her? And will she save her father before he pays the ultimate price in her stead? Sirensong is book three in Jenna Black's enchanting Faeriewalker series.

The start of a spooky yet romantic dark paranormal horror series from Glimmerglass author Jenna Black. The night is the enemy, and the city of Philadelphia is its deadliest weapon. Becket is an ordinary teenage girl, wrestling with the upheaval of her parents' divorce. A studious high school senior, her biggest problems to date have been choosing which colleges to apply to, living up to her parents' ambitious expectations for her, and fighting her secret crush on her best friend's boyfriend. But that all changes on the night she tries to save an innocent life and everything goes horribly wrong. Unbeknownst to her, Becket has been tricked into opening a door between worlds, allowing a dark magic into the mortal world. As the magic trickles in, the city begins to change at night. Strange creatures roam the streets, and inanimate objects come to life, all of them bloodthirsty and terrifying. The city returns to normal when the sun rises in the morning, and no one can capture the strange changes--such as potholes turning into toothy mouths and wires turning into strangling vines--on film, which prompts the government to declare that the city has been infected with some kind of madness and must be quarantined. Meanwhile, venturing out of one's house at night has become a dangerous proposition, and the moment the sun sets, most of the citizens of the city shut themselves up in their houses and stay there even in the case of dire emergencies. The magic is openly hostile to most mortals, but

there are some individuals it seems to covet, trying to lure them out into the night. While Becket struggles to protect her friends and family from predatory creatures of the night, she is constantly tempted to shrug off all her responsibilities and join them. Joining the night world means being free of not just responsibility, but conscience, and it means no longer caring about the fate of others.

My name is Tegan Oglietti, and on the last day of my first lifetime, I was so, so happy. Sixteen-year-old Tegan is just like every other girl living in 2027--she's happiest when playing the guitar, she's falling in love for the first time, and she's joining her friends to protest the wrongs of the world: environmental collapse, social discrimination, and political injustice. But on what should have been the best day of Tegan's life, she dies--and wakes up a hundred years in the future, locked in a government facility with no idea what happened. Tegan is the first government guinea pig to be cryonically frozen and successfully revived, which makes her an instant celebrity--even though all she wants to do is try to rebuild some semblance of a normal life. But the future isn't all she hoped it would be, and when appalling secrets come to light, Tegan must make a choice: Does she keep her head down and survive, or fight for a better future? Award-winning author Karen Healey has created a haunting, cautionary tale of an inspiring protagonist living in a not-so-distant future that could easily be our own.

Jenna Burtenshaw continues her dark fantasy trilogy *The Secrets of Wintercraft* with YA dystopian novel *Blackwatch*. In *Wintercraft*, fifteen-year-old Kate Winters learned she was one of the Skilled, a rare person who can bring the dead to life. Even among that rare group, Kate is special. She alone can understand the secrets of an ancient book of knowledge. In the sequel, *Blackwatch*, Kate is on the run from the Skilled, who have accused her of murder. And she is being hunted by an elite unit of assassins fighting in the war against Albion, Kate's home. When a potent magic threatens the veil between life and death, fate reunites Kate with enigmatic villain Silas Dane, a man who cannot be killed. Only they can save Albion.

On top of spending most of her time in a bunkerlike safe house and having her dates hijacked by a formidable Fae bodyguard, Faeriewalker Dana Hathaway is in for some more bad news: the Erlking and his pack of murderous minions known as the Wild Hunt have descended upon Avalon. With his homicidal appetite and immortal powers, the Erlking has long been the nightmare of the Fae realm. A fragile treaty with the Faerie Queen, sealed with a mysterious spell, is the one thing that keeps him from hunting unchecked in Avalon, the only place on Earth where humans and Fae live together. Which means Dana's in trouble, since it's common knowledge that the Faerie Queen wants her -- and her rare Faeriewalker powers -- dead. The smoldering, sexy Erlking's got his sights set on Dana, but does he only seek to kill her, or does he have something much darker in mind?

It's all she's ever wanted to be, but it couldn't be further from her grasp... Dana Hathaway doesn't know it yet, but she's in big trouble. When her alcoholic mom shows up at her voice recital drunk, again, Dana decides she's had enough and runs away to find her mysterious father in Avalon: the only place on Earth where the regular, everyday world and the captivating, magical world of Faerie intersect. But from the moment Dana sets foot in Avalon, everything goes wrong, for it turns out she isn't just an ordinary teenage girl--she's a Faeriewalker, a rare individual who can travel between both worlds, and the only person who can bring magic into the human world and technology into Faerie. Soon, Dana finds herself tangled up in a cutthroat game of Fae politics. Someone's trying to kill her, and everyone seems to want something from her, from her newfound friends and family to Ethan, the hot Fae guy Dana figures she'll never have a chance with... until she does. Caught between two worlds, Dana isn't sure where she'll ever fit in and who can be trusted, not to mention if her world will ever be normal again...

From the acclaimed author of the Morgan Kingsley, *Exorcist* books comes the gripping first novel in a new series about a private eye who discovers, to her surprise, that she's an immortal huntress. Nikki Glass can track down any man. But when her latest client turns out to be a true descendant of Hades, Nikki now discovers she can't die. . . . Crazy as it sounds, Nikki's manhunting skills are literally god-given. She's a living, breathing descendant of Artemis who has stepped right into a trap set by the children of the gods. Nikki's new "friends" include a descendant of Eros, who uses sex as a weapon; a descendant of Loki, whose tricks are no laughing matter; and a half-mad descendant of Kali who thinks she's a spy. But most powerful of all are the Olympians, a rival clan of immortals seeking to destroy all Descendants who refuse to bow down to them. In the eternal battle of good god/bad god, Nikki would make a divine weapon. But if they think she'll surrender without a fight, the gods must be crazy. . . .

In *Revolution*, Nadia Lake and Nate Hayes find themselves at the center of a horrifying conspiracy in the action-packed finale of Jenna Black's SF romance series that began with *Replica*. Paxco has a new ruler. Dorothy Hayes claims to be the secret daughter of the recently-assassinated Chairman. She also claims that Nate Hayes, the true heir and her supposed brother, was the one who murdered their father. Nate and his best friend, Nadia Lake, are the only ones who know the truth about what really happened to the Chairman, and more importantly, the truth about Dorothy. But with Dorothy in power, Nate and Nadia know their days are numbered. They have nowhere to run except the Basement, Paxco's perilous and lawless slums. But Dorothy is far from content with driving her enemies into hiding. She wants them dead. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
