Spotlight on First is a fully comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the revised exam. An exciting new feature of this revised edition is the Ideas Generator. Test takers need to generate ideas to pass the Speaking and Writing papers of the exam. The Ideas Generator uses National Geographic videos to stimulate students' interest in common exam topics, help them build ideas about these topics and gather the language they need to effectively write or speak about them. After each video lesson students will have a bank of ideas, functional language and vocabulary tied to eight topics that commonly appear in the exam. One of the most difficult parts of the exam for students is the Speaking Test. The Speaking Test videos and worksheets prepare students to deal with this challenge by getting them to engage with simulations of all four parts of the Speaking test.

Spotlight on CAE is a comprehensive course carefully written to the new CAE exam specifications introduced in December 2008. It prepares adult and younger learners to excel in the revised exam. All four skills are developed within each of the sixteen units, and are supported by an overall skills-based examination syllabus. Spotlight on CAE includes:

Spotlight on FCE prepares students to be fully aware of how the exam works and how to be ready to pass it. It consolidates and builds on essential areas of grammar and vocabulary. It also develops the speaking, reading, writing and listening skills required to pass. Spotlight on FCE also works well with the new online preparation course My FCE, which offers over 40 hours of additional test preparation.
