In *Sticky Teams*, Larry Osborne exposes the hidden roadblocks, structures, and goofy thinking that all too often sabotage the health and harmony of even the best intentioned ministry teams. Then, with practical and seasoned advice, he shows what it takes to get a leadership board, ministry team, and an entire congregation headed in the same direction, sticking together, unified and healthy for the long haul.

Heather Robbins lived twenty-five years on a cattle ranch on the Canada prairies, and spent many hours outside walking through fields and pastures, hills and valleys. She found beauty and inspiration in everything that she saw. Mother Nature reached into her soul and brought her to a place of complete belonging and peace. Wildflowers composed their sweet songs, sweeping Heather away into a world of inspiration, and they gently reminded her of what was possible, motivating her to live her life with hope, strength, and grace. Each wildflower whispered their lessons, guiding her to look inside herself with love and understanding, forgiveness and gratitude. It is Heather's hope that as women journey through these pages, they will be inspired to open up their hearts to hear these divine messages, and discover the beauty and grace that exists within us all.

All the wisdom forms an intriguing 40-point manifesto to inspire your approach.

Most parents would give anything to anchor their children with a vibrant faith that "sticks" and continues to mature long-term. Yet despite this deep desire, research indicates that approximately 40-50% of high school seniors drift from their faith after graduation. In response to this problem, the Fuller Youth Institute (FYI) has launched the College Transition Project, a national longitudinal study following 400 high school seniors during their first three years in college. This provocative and needed research is geared to spark a movement that empowers parents, churches, leaders, and adults of all ages to develop robust and long-term faith in kids.

?What If! delivers powerful insights that demolish the myths of creativity and help you not just change the way you think but change the way you do.
