An indispensable companion to the 2nd edition of The Administrative Dental Assistant, this workbook combines the key objectives and content of the textbook with challenging exercises, putting the information into a practical context. These exercises also work in conjunction with the tasks presented in the companion CD-ROM, making the Administrative Dental Assistant an even more accurate representation of the challenges that administrative dental assistants will encounter on the job. This new edition includes an interactive demo CD from leading software provider Dentrix. An interactive, networkable demo CD from Dentrix is included, allowing students to access Dentrix's leading practice management software to perform administrative dental assistant tasks exactly as they would be performed by professionals. Introductory paragraphs in every chapter outline content revisions and changes in the field, along with instructions for using corresponding elements of the Dentrix software. New and revised exercises include short answer, multiple choice, matching, fill in the blank, labeling, and fill-in form exercises drawing on the most current information as presented in the textbook. More than 100 new or colorized images reinforce key points and provide examples of important topics and procedures. Chapter objectives set learning goals for each chapter. Puzzles include crossword, word search, and word scramble puzzles for every chapter, challenging retention of key terms and concepts. Illustrations, charts, and graphs are based on corresponding chapters in the textbook, and reinforce the link between learning and real-world application.

This workbook is designed to reinforce concepts presented in the main text, THE ADMINISTRATIVE DENTAL ASSISTANT. Includes software that provides the opportunity for the reader to become familiar with entering patient data, insurance information, and scheduling appointments as well as accessing specific data.

This competency-based learning system covers the administrative, clinical, and general areas necessary for entry-level employment as identified by the medical assistant role delineation study issued by the American Association of Medical Assistants. A listing of role delineation areas in each unit and in Appendix A make it easy to locate specific skills within each competency. A unit on related therapies presents information on complimentary and alternative treatments.

Medical Assisting, 4/e addresses the most current competencies for medical assisting certification, CPR procedures, coding and insurance billing requirements, HIPAA regulation, OSHA guidelines, and clinical diagnostic testing such as hemoglobin A1c (diabetes) testing. Thorough coverage of procedures remains an asset and Anatomy & Physiology coverage is included in separate chapters. It trains students on medical office administrative procedures and equipment, clinical procedures, infection control, anatomy and physiology, assisting with patients, medical emergencies and first aid, laboratory procedures, nutrition, pharmacology, diagnostic equipment, and much more.
