The stated goals of the Textbook of Forensic Psychiatryare to provide the basic information that general clinicians need to discharge forensic obligations in a competent manner and to help clinicians recognize that certain areas of forensic practice require the skills of a forensic specialist. This textbook is geared toward general clinicians who become involved in forensic work in addition to forensic specialists who want to expand their level of expertise.

Textbook of Forensic Psychiatry | Psychiatric Services

Arboleda-Florez (2006) has proposed a more encompassing definition that will cover the specific problems of managing the mentally ill offender: "Forensic Psychiatry is the branch of psychiatry that deals with issues arising in the interface between psychiatry and the law, and with the flow of mentally disordered offenders along a continuum of health and social systems."
