The Baby Owner's Manual has taught more than 300,000 parents worldwide how to "operate" newborns and infants. Now the bestselling book is back in an all-new deluxe packageand it's the perfect shower gift for any hip parent-to-be. The Baby Owner's Starter Kit includes: The Baby Owner's Manual Growth Chart, with stickers for marking baby's progress Diaper Changing Instructional Poster Babysitter's Memo Pad Decorative magnet Packaged with irreverent schematic diagrams, troubleshooting tips, and a handsome keepsake box, The Baby Owner's Starter Kit makes parenting as easy as 1-2-3.

At Last! A Beginner's Guide to Newborn Baby Technology You've programmed your DVR, you've installed a wireless internet connection, you can even check facebook on your cell phone. But none of this experience will prepare you for the world's biggest technological marvel: a newborn baby. Through step-by-step instructions and helpful schematic diagrams, The Baby Owner's Manual explores hundreds of frequently asked questions: What's the best way to swaddle a baby? How can I make my newborn sleep through the night? When should I bring the baby to a doctor for servicing? Whatever your concerns, you'll find the answers here—courtesy of celebrated pediatrician Dr. Louis Borgenicht and his son, Joe Borgenicht. Together, they provide plenty of useful advice for anyone who wants to learn the basics of childcare.

Based on the successful Baby Owner's Manual, The Baby Owner's Maintenance Log presents a refreshing alternative to traditional sugar-sweet baby journals. Hip parents can record all major milestones and measurements in these pages, including the arrival of the unit, fuel preferences and speech activation. Spiral binding, hilarious illustrations and a bound-in envelope for keepsakes make this guided journal a great shower gift.

The Book Your Children Don't Want You to Read This revised and updated edition of How to Con Your Kid is the most useful (and sneakiest) parenting manual you'll ever purchase. Here are hundreds of tips, techniques, and simple scams for getting your child to do exactly what you want—at mealtime, bedtime, bathtime, and beyond. You'll learn how to: • Con your kid into eating by playing on his possessiveness. • Con your kid into bathing by "swimming" in the tub. • Con your kid into talking quietly by whispering back. • Con your kid into returning your iDevice-by any means possible! And dozens more tricks of the parenting trade!

Breastfeeding may be natural, but it certainly isn't easy. Healthy for the baby? Definitely. A challenge for mom? Without a doubt. Sometimes mom and baby end up crying in harmony! Help is on the way with "Mama Knows Breast", a practical guide full of breastfeeding advice delivered with a light touch and without the strident, judgmental tone or scary, clinical language that litters other books on breastfeeding. Written by mom Andrea Silverman and packed with anecdotes and advice from women who've lived through the ups and downs of "life" with an infant, this practical, realistic guide gives women the lowdown.

What can you do with the Raspberry Pi, a \$35 computer the size of a credit card? All sorts of things! If you're learning how to program, or looking to build new electronic projects, this hands-on guide will show you just how valuable this flexible little platform can be. This book takes you step-by-step through many fun and educational possibilities. Take advantage of several preloaded programming languages. Use the Raspberry Pi with Arduino. Create internet-connected projects. Play with multimedia. With Raspberry Pi, you can do all of this and more. Get acquainted with hardware features on the Pi's board Learn enough Linux to move around the operating system Pick up the basics of Python and Scratch-and start programming Draw graphics, play sounds, and handle mouse events with the Pygame framework Use the Pi's input and output pins to do some hardware hacking Discover how Arduino and the Raspberry Pi complement each other Integrate USB webcams and other peripherals into your projects Create your own Pi-based web server with Python

I am a cat. Are you a cat? Cat is curious. There's a new addition to the family, but who exactly is this small being? This new arrival doesn't meow like a cat, or smell like a cat, or even have a tail like a cat. As Cat investigates, he might just come to appreciate this loud, silly family member. After all, they both enjoy a good catnap. In Cat's First Baby, the feline companion to Dog's First Baby, Natalie Nelson captures the wonder and humor of a new family member through a cat's eyes. Sure to delight kids and cat parents alike, this board book promises to be a repeat read-aloud.

"Now You Can Unlock & Unleash Everything That Is Holding You Back And Keeping You From Moving Forward. Giving You "Clean Slate" To Obtain, Health, Wealth And Most Importantly... Peace of Mind! Let me introduce myself. My name is Dr. Mark Tong and I am a Spiritual Healer and Teacher that has developed a "Process" to identify the "Life Lessons" each individual is dealing with. Let's face it, we are all here learning and dealing with Spiritual lessons. The challenge with these lessons is having the awareness and knowing what these lessons are and what is needed to complete the lesson(s). As you know, by looking back at your own life, these "lessons" continue to repeat and seem to get harder and harder until we learn what we need to learn from them. You find them in your struggles with relationships, abundance, physical conditions and other various aspects of your life. BUT NOW YOU CAN DO SOMETHING... Seeing and understanding your own "Life Lessons" is difficult, and it can be challenging to identify and understand, let alone learn from them. HERE'S WHERE I COME IN... I have developed a special online audio and video program, where you will hear all about "Life Lessons" and how to identify, and more importantly, learn from the lessons so they will never repeat. AND IF THAT'S NOT ENOUGH... As part of the program you will receive an "Emotional Inventory Worksheet" along with the "Answer Key" that will lead you through your life events and associate each event with specific "Life Lessons" for that event. Not only is this a valuable resource for your Spiritual growth, but you will learn how to begin helping others with their own "Life Lessons" (priceless). This online program with help you identify: Your remaining "Life Lessons" Who is involved How many times it's repeated The Spiritual concepts tied to the "lessons" Plus: You will receive the tools to begin to "walk through" those "lessons."

Describes simple activities suited to various educational pastimes and situations.

"This laugh-out-loud hilarious book is mandatory reading for parents, and should be taught in schools as the "cautionary tale" portion of Sex Ed. Run don't walk to buy it, and if you're a baby with lethal parents, crawl don't roll." --Rob Kutner (writer, The Daily Show, Conan, The Future According to Me) "Unlike babies themselves, copies of Jacob Sager Weinstein's book can be bought and sold on the open market. Buy two and bring joy and laughter to the lives of a copy-less couple." --Jose Arroyo (writer, Conan) "The "s-a-g-e" in Jacob's middle moniker indicates exactly that. He is a whimsically wise and hysterically funny fellow whom any child (or book buying adult) would be wise to listen to." --Dennis Miller "If you don't buy this book and then your baby dies, how are you going to feel? Pretty bad, I imagine." --Larry Doyle (writer, I Love You Beth Cooper; Go, Mutants!; The Simpsons) Have you ever read a parenting book that left you feeling inadequate and/or terrified? In other words, have you ever read any parenting book whatsoever? If so, you need How Not To Kill Your Baby, a hilarious parody of every fear-mongering, crazy-making pregnancy and parenting manual you've ever cringed over. Just consider the following advice: * "As you know if you have ever seen someone give birth in a movie or television show, all newborns emerge with adorable round faces, pudgy limbs, and twinkling eyes. If, by contrast, the nurse hands you a tiny, squawling creature with the face of an old man and skin covered in goo, hand it back immediately. There has clearly been some sort of mixup with a nearby ward for senile midwets." * "It's essential that you keep careful track of your baby's every bodily function. That way, when she is president of the United States and a paranoid-minded conspiracy movement springs up denying her eligibility for the position, you will have documentary proof that she did, in fact, poop on U.S. soil at 8:23AM on February 23." * "When choosing a nursery school, make sure to visit first, and ask the teachers about their educational philosophies. Then ask about their criminal records. If they insist they have none, you may need to keep asking, perhaps while shining a bright light in their face. Also, take their fingerprints, then follow them home from a discreet distance and go through their trash. Oh, and don't forget to thank them for their dedication to helping the young!" * "It is easy to adjust your parenting techniques as your children grow: simply do and say the exact same things, but raise your voice by one decibel for every year of your child's age." How Not To Kill Your Baby is printed on child-safe, 100% piranha-free paper, and bound without the use of exploding staples. You'll get no such promise from What To Expect When You're Expecting. How Not To Kill Your Baby is the book for you... unless you're some kind of baby-hating creep who wants to parent all wrong.
