Globalisation, corporate governance - SlideShare

governance is being used to describe the regulation of interdependent relations in the absence of overarching political authority, such as in the international system. Thus, global governance can be considered as the management of global processes in the absence of any form of global government.

Globalization and Corporate Governance - IJIMT

One of the primary reasons for the convergence in corporate governance practices is that the largest public pension systems in North America, Western Europe and Asia have developed substantial ownership and influence over corporate governance and corporate strategy. 2 Public pension plans owned almost a tenth of the European market share in 2008, while U.S. pension funds own between 10% and 20% of the U.S. equity market. 3 As large investors with significant assets, these pension plans have ...
