Amazon.com: The Great Cholesterol Myth Cookbook eBook ...

This book covers blood levels of cholesterol, cholesterol in the diet, and drugs to lower cholesterol, and while not everything we hear is a myth, a lot of it is. The authors make the following claims, and support them with good references to key articles. Firstly, the relationship between blood cholesterol levels and heart disease is, at best, weak and certainly more complicated than often portrayed.

Book Review: The Great Cholesterol Myth | Dr Joe Today

"The Great Cholesterol Myth, by Jonny Bowden, Ph.D., and Stephen Sinatra, M.D., goes far beyond the standard information and advice for anyone worried about heart disease. The style is breezy and easy to read, but the information is solid and will surprise many readers. A must for anyone who needs to combat heart problems."
