Clarkson helps you rediscover the joy and fulfillment to be found in the strategic role to which God in all his wisdom has called you, for a purpose far greater than you can ever imagine.

There's no such thing as “ just ” a mom. Despite the routine tasks and mundane to-do lists, motherhood is anything but insignificant. God has designed motherhood as part of his greater plan to draw people to himself—instilling all women, whether called to traditional mothering or not, with an eternal purpose in nurturing others. In this book, Gloria Furman searches the Scriptures for the mission of God in motherhood. She opens our eyes to God's life-giving promises—promises intended to empower each and every

A PUBLISHERS WEEKLY BESTSELLER  
Motherhood is hard. In a world of five-step lists and silver-bullet solutions to become perfect parents, mothers are burdened with mixed messages about who they are and what choices they should make. If you feel pulled between high-fives and hard words, with culture 's solutions only raising more questions, you 're not alone. But there is hope. You might think that Scripture doesn 't have much to say about the food you make for breakfast, how you view your postpartum body, or what school choice you make for your children, but a deeper look reveals that the Bible provides the framework for

The "duet" of calls-to follow God and to become a mother-began with Sarah's story in Genesis and continues in God's people today. As more women follow God's call into ministry, many are discovering the

power of this duet. These women are gifted for ministry, trained and shaped through excellent educations, and affirmed in their call. They serve as pastors in churches, on campuses, in impoverished areas, prisons, hospitals, hospices, the military, and in academia. And many of them are also called to be mothers: birth mothers, adoptive mothers, mothers to other people's children, mothers to their students. As they continue to follow God, the call story and the birth story combine, and the duet rings true. Each essay in this inspiring collection is as different as the mother-minister who wrote it, from theologians to chaplains, inner-city ministers to rural-poverty ministers, youth pastors to preachers, mothers who have adopted, birthed, and done both.

It's hard enough to train kids to behave, but good behavior isn't what Jesus calls for in the Bible. He wants hearts and souls that are shaped in vibrant faith and love toward God and others. How can parents cultivate this in their children? In this book Dr. Michelle Anthony shares practical examples and biblical insight on the spiritual role of parenting. *Spiritual Parenting* introduces the simple but revolutionary concept that parents are, by the power of God's Spirit, to

Drawing together original research which weaves together ideas from theology, philosophy, feminism and writing on mothering and child development, Emma Percy affirms and encourages aspects of good practice in ministry that are in danger of being overlooked because they are neither well-articulated nor valued. Offering a fresh look at parish ministry, this book uses a maternal metaphor to provide an integrated image of being and doing. The metaphor of mothering is used to explore the relational aspect of parish ministry which needs to value particularity and concrete contingent responsiveness. Percy suggests

virtues that need to be cultivated to guard against the temptations to intrusive or domineering styles of care on the one hand or passive abnegation of responsibility on the other. Parish ministry cannot be understood in terms of tangible productivity; different ways of understanding success and evaluating priorities need to be developed. The book suggests ways of being 'good enough' clergy who can find the right balance between caring for people and communities whilst encouraging and acknowledging the maturity of others.
