One of the best strategies in a video game is lying low and waiting for an opponent to come along and stumble into a well-devised trap. Fortnite is no exception, with traps that can inflict damage, stun, or even launch an enemy when placed on a wall, ceiling, or floor. Analyzing and summarizing the different types of traps, where to place them, and how best to use them to a player's advantage, this volume gives readers new ways to inflict a high level of damage, often while keeping their own fighters out of harm's way.
