If anyone would had told me when I was in high school, that I would become a math instructor, I would had laughed and called him crazy. You see, in high school, I struggled with math. I would start panicking the night before a math test, convinced that I would mess the whole problem with just one tiny mistake.

You play for a total of 100 hours and your expectation for those 100 hours is \$2,500. You take a look at your logs and realized you are only \$2000 ahead. This shows you are \$500 below expectation which is the VARIANCE of what you would expect to win, on the flip side you could always be \$500 ahead of your EV.
